

NW COMPLEX BIOSECURITY QUESTIONNAIRE

SHOW: _____ **DATES:** _____

We are excited to host your Horse Show at the National Western Complex in Denver, CO! Your horse's health and well being are of the utmost importance and the National Western Complex is committed to animal health and safety year round. We employ several preventative measures as part of our biosecurity plan and encourage horse owners to participate in minimizing the risks to protect the health and welfare of the equine industry. Below is information on our biosecurity plan and how we can work together to keep our horses safe.

Please fill out and return this questionnaire at least two weeks prior to your show. This plan should be shared with your show staff and officials, including but not limited to: manager, secretary, superintendent, board, stalling, volunteers, veterinarian, etc. Additionally, your responses and plan will be shared among the National Western Complex staff involved with your event.

OBJECTIVE

The National Western Complex will create and continually evaluate a year round biosecurity plan to minimize risk and control threats to horse health utilizing advice from national and local experts.

NW COMPLEX PROVIDES

1. Signage in the barns with tips to help prevent the spread of disease or infection
2. Synbiont® sprayed throughout the barns, stalls and wash racks prior to each show
3. Synbiont® sprayed periodically throughout main barn areas and wash racks during longer shows
4. Sharps receptacles in the barn areas for the disposal of needles and other medical devices
5. Manure dump areas that are routinely cleared during horse shows
6. Hand sanitizer dispensers around the Complex

WHAT YOU SHOULD DO

1. Share the NW Complex Biosecurity Statement with your show staff, officials and exhibitors via premium book, email, website, entry forms, social media and/or other means of communication PRIOR to show arrival.
Completed: _____
2. Maintain an electronic contact list of all exhibitors, officials and show staff including email addresses and cell phone numbers.
Completed: _____
3. Subscribe to the Equine Disease Communication Center email notification system:
<http://equinediseasecc.org/>
Completed: _____
4. Secure the services of an on call or on grounds veterinarian and post signs around the Complex with their name and contact information.
Completed: _____
5. Have information on veterinary hospitals and the state veterinarian's office available during your show.
Completed: _____
