Simmental - Please look at the video of these heifers. This is a very special pen of heifers. There is a solid black one in this pen that is awfully attractive and special. The remaining white-faced heifers are big bodied, sound, and attractive as well... the kind we like. The best thing we can say is to watch this video. They are good.

*Lot 2*

Angus - These girls are moderate sized, feminine, good looking, and good ribbed. This is what you would expect out of elite set of angus heifers. These would be sisters to the pens that have won the NWSS commercial heifer show the last two years as well as the Overall Grand Pen in Fort Worth a few years ago. These heifers have consistently won the Angus bred heifer division in Forth Worth the last several years.

This pen of five SimAngus cross heifers stands at the top for their uniformity and completeness. I like the way this group is big-bodied and easy-fleshing while staying sound on their feet and legs. The black heifers bred to the SimAngus bull and the white-faced heifers bred to the Hereford bull match up well and work as a very complete, attractive set – the kind that are hard to fault.
